### Highlights

- Free to use for registered users.
- Simple to use
- Aids the procurement process.

# Enquiry Alert Service

Enquiry Alert is a proven web based pre enquiry system which helps anyone in construction to reduce costs of operations when looking to place work.

This free service offers Users an effective and efficient procurement process, whilst giving access to a huge choice of evaluated companies which, through CDM and commercial compliance, help reduce their own business and insurance risk.

The speed of project and package creation combined with fast response from selected vendors speeds up the tender process which will help to win more profitable work.
